Lengby Fosston Knightriders Snowmobile Club 4th Annual Spring Shoot-Out Radar Run draws huge attendance

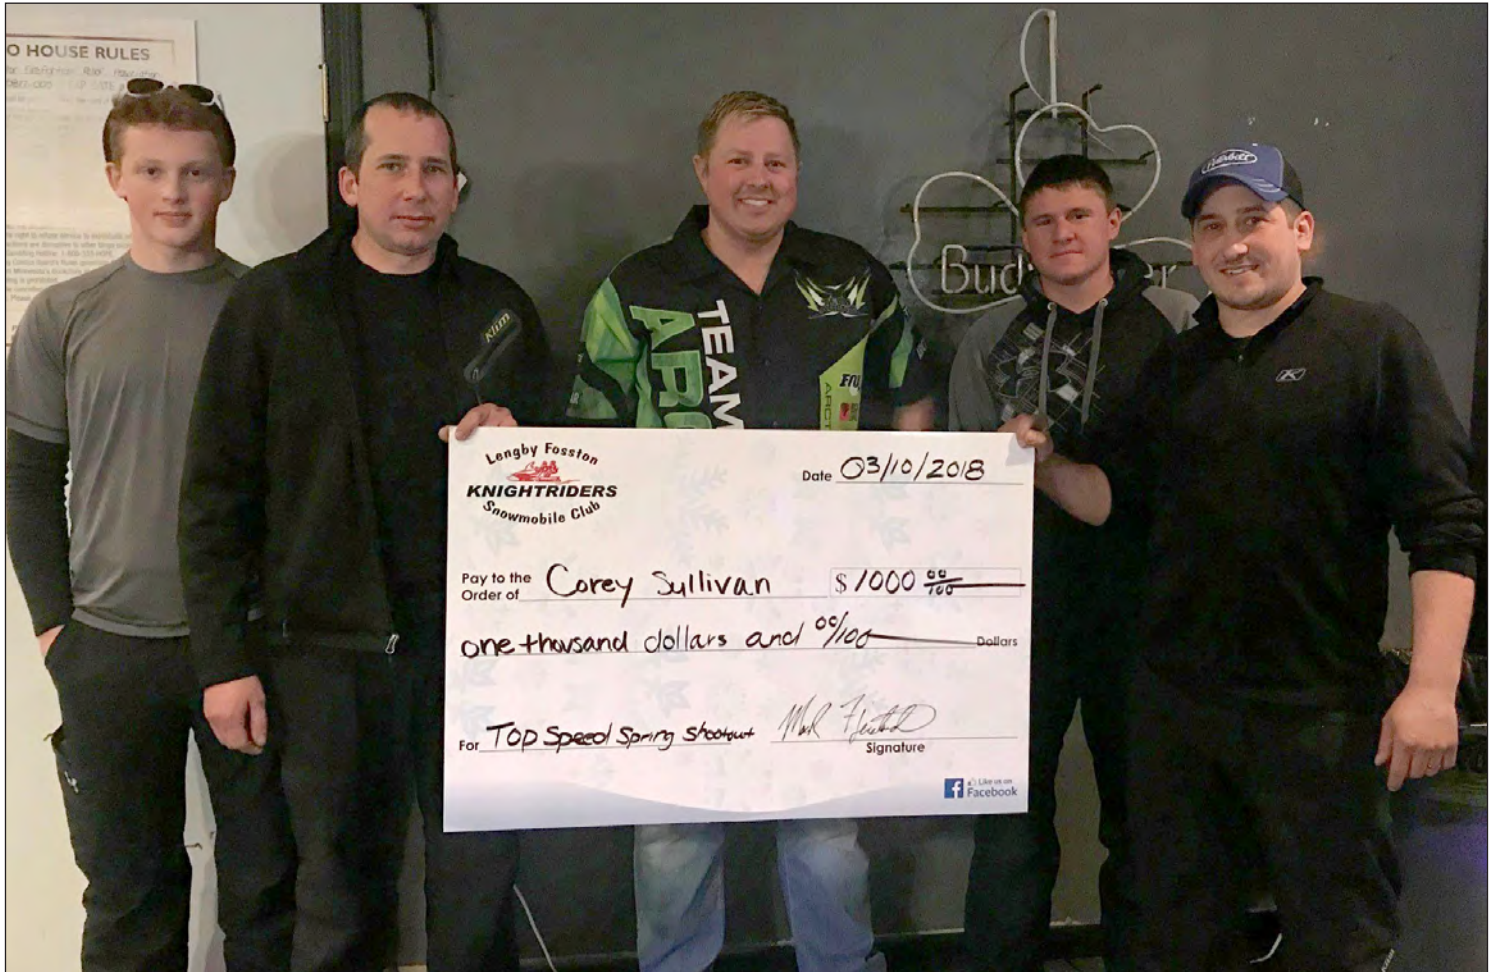

The Lengby Fosston Knightriders Snowmobile Club held their 4th Annual Spring Shoot-Out Radar Run on Saturday, March 10. The weather was great and the races ran on schedule on Ouff Lake, which is 2 miles west of Fosston on Hwy 2 next to the Golf Course. Mark Fjerstad, one of the organizers of the race, said that this was the best race they have had yet and had a huge attendance, approximately 300 people.

For the race there were eight different classes with 1st and 2nd place awards plus cash prize drawings for Radar Run Classes. Final statistics: 104 entries in the radar run, 368 passes down the track, with an average speed of 114.8 mph.

There were other races as well, the Ice Lemans/Vintage and the 120 & Side by Side race.

After the races awards were given at Ventures Bar & Grill in Fosston.

Thanks to all who helped put this event together and to everyone that attended. It was a great day!

Be aware of deadline to remove fish houses

The deadline for anglers to remove fish houses from lakes in Minnesota is approaching quickly, according to the Department of Natural Resources.

Removal dates are determined by an east-west line formed by U.S. Highway 10, east along Highway 34 to Minnesota Highway 200, east along Highway 200 to U.S. Highway 2, and east along Highway 2 to the Minnesota-Wisconsin border. The removal deadline south of that line was the end of the day Monday, March 5. The deadline north of that line is the end of the day Monday, March 19.

“With the recent snow and a forecast that calls for warmer weather, travel conditions on lakes may be difficult,” said DNR Conservation Officer Brent Grewe, who patrols the Minnetonka area. “But anglers are responsible for removing their shelters by the deadline, so they should plan ahead and make sure they’re able to do so.”

Fish house owners also should be cognizant of taking trash off the lake – whether it’s theirs or was left by someone else. “Minnesota’s lakes are among the best in the nation and it’s up to each one of us to do our part to keep them clean,” said Col. Rodmen Smith, director of the DNR Enforcement Division.

If shelters aren’t removed by the deadline, owners will be prosecuted and structures may be confiscated and removed, or destroyed by a conservation officer. After the deadline, shelters may be on the ice between midnight and one hour before sunrise only when occupied. They may not be left or stored at public accesses. As they venture out, anglers always should keep in mind that ice conditions may vary widely and that ice is never 100 percent safe.

Exceptions to the removal deadlines are Minnesota-Canada border waters (March 31), Minnesota-South Dakota and North Dakota border waters (March 5), Minnesota-Wisconsin border waters (March 1) and Minnesota-Iowa border waters (Feb. 20).

12th Annual Community Wellness Summit Held at Red Lake “Together WE Can Make Change” is Theme

Red Lake Chairman Darrell G. Seki, Sr., welcomes the attendees.

Photos and Story By Michael Meuers
“When we break one heart, we break them all, as they are interconnected. If you don’t have balance, you are part of the problem, because it’s an interconnected system. Health is more than the absence of disease; it is a state of optimal well-being. We are doing as our ancestors did. The people were asked, and then all came together and pooled their wisdom.” ~Gichi-Ma’ingan (Big Wolf) ROAD TO PONEMAH: The Teachings of Larry Stilday
The Twelfth Annual Red Lake Community Wellness Summit (formerly Drug & Gang Summit) was held Wednesday, Thursday, and Friday, March 7-9, 2018 at Seven Clans Casino Hotel & Events Center in Red Lake.
The 2018 theme was “To-

gether WE Can Make Change.” Community Members, Chemical Health and Mental Health Services, Public Safety personnel, School Personnel, and other programs and services, both on and off reservation, were among those attending. The event was free and open to the public with lunch provided each day.

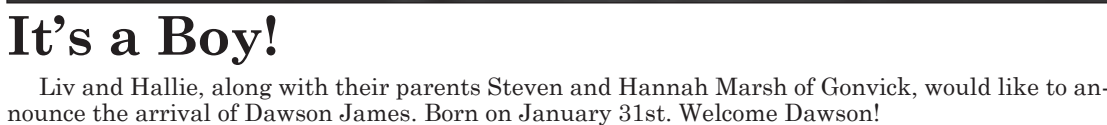

The Summit turnout was about as expected. With registration beginning at 8 am each day, scores of registrants participated in a variety of learning opportunities over the two and a half days. Events ran from 9:00 am to 4:00 pm the first two days, and noon on Day Three. Participants came not only from Red Lake, but also from Leech Lake, White Earth, Bemidji, and other communities.

Each day featured keynote speakers, special presentations, and/or workshops. Subjects included an emphasis on the opiate epidemic along with drug and paraphernalia identification, healthy relationships, cultural teachings, and Seboxin: Treating Pain & Addiction. Related services and informational booths dotted the perimeter of the hotel lobby.

A Peer Support Group Meeting was held on the first night and a Round Dance on the second, both began at 7.

The Summit began with an invocation by Obaashiing elder and pipe carrier Murphy Thomas who also acted as emcee. He combined his hosting with teachings and humor. After a welcoming, he called on the Little Bear Drum to do two songs plus a song in tribute to women.

Thomas along with Chance Rush (Three Affiliated Tribes - Hidatsa) acted as summit facilitators. "This is your community; your home and your story," said Rush to those assembled.

Rush then introduced Arlen Medicine interim Executive Director of Red Lake Chemical Health Programs. "We welcome you to the 12th Annual Community Wellness Summit, formerly the Drug and Gang Summit," said Medicine.

"Back in July the Tribal Council declared a Public Health Emergency as a direct result of the large scale drug trafficking and addiction of many tribal

members to dangerous illegal drugs and powerful opiate drugs," said Medicine. "Band members and health officials gathered to address the crisis. This conference will focus on that opioid epidemic in addition to other issues of concern."

Medicine is a licensed alcohol and drug counselor and has worked as a Rule 25 assessor for nearly two decades. "I've gained some knowledge and experience in this area over last five years," he said. "I hope to bring this experience to help us here on the reservation."

Medicine then introduced Red Lake Tribal Chairman Darrell G. Seki, Sr., who welcomed attendees.

Seki, as is his manner, first

spoke in Ojibwemowin. "Ozaawi Naabesim indizhinkaaz, Migizi indoodem, Oobaashiing indoonjibaa," he said introducing himself, his clan and where he was from. He then followed up in his second language, English. He thanked the tribal council members and chiefs for the work they do. He then spoke of majimashkiki (bad medicine) speaking about the danger of drugs on the reservation, particularly the opioid crisis.

Seki noted that much of the reservation programs are dealing with the opiate epidemic. "We must have respect for all people and all things. We need to work together to deal with drugs. We have a battle on our hands, but we can do it. We need to heal. We need education

because incarceration does not work. We are not the only ones who suffer, other tribes and Bemidji suffers. We must work together. Together we can do it, politics should not be part of this issue, politics has no place in prevention."

"This is an illness that we can overcome by working together and stopping the drugs that are coming to destroy our families. No matter what color, we all have to deal with it," said Seki. "We must remember our kids and our kids not here yet. Thank you to law enforcement for all the battle they have fought. It's not easy, it hurts our families, our children are taken away to foster homes." Seki closed by thanking the team from Chemical Health programs for

us, if you see our 'world view,' if you ceremony with us, if you pray with us, if you live with us, you are us."

"We have to buy into greatness on a community level, but also on an individual level," he said. "You have to buy into what you want to become, you have to believe in what you want to become...Where you buy into greatness is by knowing who you are."

"One thing I love about the Red Lake community is they're really welcoming and they want to be teachers. They want to teach the outside world about Ojibwe language, about Anishinaabe ways," said Chance.

After lunch motivational speaker Kasey Nicholson pre-

In Tulsa with husband Chance and three children. She's a member of Board of Trustees of the United National Indian Tribal Youth (UNITY). She has a BS and MS in Education.

Services for Ruth (Shelquist) Sandland

Ruth (Shelquist) Sandland died on March 26, 2018 at St Peter's Hospital in Helena, Montana. Her funeral service will be held on March 20, 2018 at 2:00 p.m. at Good Shepherd Lutheran Church in Clearbrook, Minnesota.

with Reverend Robert Kirchner officiating. A visitation will be one hour prior to the service at the church. Burial will be at the Greenwood Cemetery at a later date. The Cease Family Funeral Home of Bagley, MN assisted the family with arrangements.

Ruth was born April 29, 1918 in Leon Township, Clearbrook, Minnesota, the daughter of Maurice and Christine Shelquist. Her father passed away when she was 2 years old, she was raised by her mother along with her 6 siblings on their farm. She attended Leon School through the 8th grade and completed her goal of getting a GED at the age of 52. She was baptized and confirmed in her faith at Greenwood Lutheran Church, rural Clearbrook.

On April 20, 1940, Ruth was united in marriage with Lester Sandland in Clearbrook, Minnesota. Following their marriage, they lived and farmed near the Sandland homestead in Greenwood Township. They had a family of four children, Loyce, Cheryl, Leslie, and Reginald. Following Lester's death at the age of 40 in 1957, she sold the farm and moved into Clearbrook. In 1959, Ruth and her children moved to Thief River Falls, Minn. so she could attend cosmetology training. Upon graduating, they moved back to Clearbrook where she opened a beauty shop, she continued this business for 39 years. She also operated the beauty shop at the Good Samaritan Home

part time.

Ruth was a member of the Good Shepherd Lutheran Church, active in bowling leagues, golfing and birthday clubs. She enjoyed flower gardening, taking care of her home, needlework, traveling, cards and games. She was always actively involved with her family and friends, which brought her much enjoyment.

Ruth retired in 1998 at the age of 80 years and moved to Minot, ND, to be closer to Cheryl and Vern. While living there she became involved with 1st Lutheran Church, volunteered at Trinity Hospital, and was a member of the Senior Citizens Center. She made new friends in Minot and enjoyed many evenings playing cards with a group in her apartment building.

Ruth entered Trinity Nursing Home, Minot, ND, in 2014 and later transferred to Cooney Nursing Home, Helena, MT, in 2016 to be closer to more family. During her time in Helena, she enjoyed many visits with her grandchildren and great granddaughters.

Ruth enjoyed a long healthy life and had plans to celebrate her 100th birthday in two months. She often talked about all the changes she had seen and experienced during her life time. She also met many challenges and hardships during her long life which she faced with strength from her faith and a strong resolve. She will be missed.

Red Flags

They dot our landscape, you know. Such a simple gesture it is when one is propped up for those who are looking for the likes of. It's a signal...subtle at best...yet, not so...for those who scan the land of which they dot.

When a red flag is waved, it usually carries with it a sign. A warning it is when you are driving and you see one attached to something hanging over the edge of anything up ahead. Something that could cause danger if you don't know it's there. Take extra caution is what the red flag is screaming.

Red flags are tossed to the ground when someone is out of line in games played. Take pause is what is signaled. Take pause so we may eliminate the problem here. No more full speed ahead says the flag grounded out of protection for the participants.

Red flags can signal no more full speed ahead cause the waters ahead are dangerous. Or simply put, red flags are asking us to stop.

Stop is exactly what the little red flags dotting the landscape of the United States of America call out to the passersby. It's a little deal that's a big deal in our country. We are blessed with the simple opportunity to raise them. Yes we are indeed.

Case in point: Packing the grinds into the car seats one day in sub-zero temps, I shortly, thereafter, packed me into the driver's seat. As I looked to the right, there beside me was evidence of that which I'd neglected to take care of some hundred miles back.

You see, I left the farm with the little item that needed attention. Once upon the road, I forgot all about it. Now, there it sat all frozen like upon the seat as I stared just as coldly noting that the due date would soon be past. I needed to act.

Just before pulling out of the driveway, I made my way back out into the cold, stomped a path to the little black box nearby. I opened it. I closed it. And...upon closing it...I popped up the little red flag long side that little black box and walked back to the car.

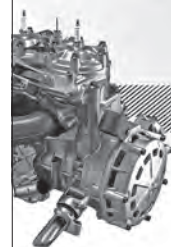

Only in America can you take mere steps knowing that with the flip up of one little red flag, a driver in a smaller red, white, and blue vehicle...or not...will stop, take the letter you have placed within, and deliver it to its designated destination.

Isaiah 5:26 makes reference. "He will also lift up a standard to the distant nation, and will whistle for it from the ends of the earth; and behold, it

will come with speed swiftly."

Now I don't suppose He's referring to the United States Postal Service, but you have to admit that we are a distant nation, and behold it is delivered with speed swiftly. I know well that you don't take scripture and turn it into something that meets your needs for the moment. But, I am a firm believer that we have a God who has room for humor and provides it just when we need it most. For, He alone is God and will be glorified in and through every single detail. It brings Him delight that we delight in Him. To God be the glory. Amen.

Northland Pioneers Women's Basketball heading back to the National Tournament

The Pioneers earn their eighth tournament appearance in nine seasons

THIEF RIVER FALLS, MN, Mar. 8, 2018 — The Northland Pioneers Women's Basketball team has advanced to the 2018 NJCAA Division III National Championship Tournament. Northland won the Region XIII Women's Basketball Tournament with a 59-54 victory over 4th seed Central Lakes in the semifinal round and a 68-53 win over 3rd seed Hibbing Community College in the championship game. These victories earned the Pioneers a return trip to the National Tournament on March 15-17, 2018 in Rockford, Illinois.

"The basketball season is such a long one so there are always ups and downs, but we hoped to be playing our best basketball during playoff time," head coach Shannon Nelson said after the regional championship game. "The team had a goal to host the regional tournament and make it back to the national tournament, and we did that by putting together 40 minutes of great basketball on Sunday. We have six sophomores on this team and they did a great job of communicating this vision to the freshmen, and setting expectations for how the team was to perform."

That vision led Northland to securing the #5 seed in the national tournament and will open play against Montgomery

at 3:00 PM CST on March 15th. Coach Nelson and All-Division honorees Megan Swedberg, Brooke Heggie, Emily Anderson and Madison Stenzel will have experience on their side as they travel to Rockford, Illinois, as one of eight teams pursuing a national championship.

Sophomore guard Emily Anderson, said "It feels so amazing to win the championship title, especially since it is my sophomore year. This season compared to last year is different because this time I am a sophomore and I feel that the stakes are higher, but this is a whole new team with six sophomores so we definitely have experience." Anderson added, "I'm looking forward to making unforgettable memories at the national tournament."

Freshman center Brooke Heggie, said "I believe that if we play defense the way I know we can play and move the ball on offense, we have a good chance at taking home a national title." Heggie added, "Northland has been a great fit for me to pursue my basketball career. Shannon's years of experience as a coach has been key to help me get back into shape and expand my basketball skills. What a great year this team has had. I'm proud to be a Pioneer!"

This is coach Nelson's 7th national tournament appearance during her eight seasons as

head coach at Northland.

"I think these ladies do a great job of representing Northland and NCTC athletics. Going to the tournament next week allows them to represent the college on a national level," Nelson explained on the teams tournament success. "Our athletic programs have seen a lot of success over the past several years and it is a testament to the coaches and athletes who put in so much time and effort."

Mike Curfman, NCTC athletics director said, "The NCTC women's basketball team has appeared in eight out of the last nine NJCAA National Tournaments. This is a very rare feat in college athletics and an amazing accomplishment for coach Nelson and her program. As they prepare for this year's tournament next week in Illinois, we want to wish the coaches and team the best of luck!"

Northland is making its 10th overall appearance in the NJCAA postseason. Northland won the National Championship in 2014 and was National Tournament runner-up in 2016. Northland had a 22-win and 5-loss season and was 10-2 in the MCAC Northern Division.

Ask a Trooper

by Sgt. Jesse Grabow Minnesota State Patrol

Question: If I'm driving a friend's car whose license is suspended, if the officer runs the plates and it comes back to my friend, can he pull me over just because the registered owner's license is suspended? Is that probable cause to stop me? My license is valid. Thanks.

Answer: While on patrol, we are looking for many types of violations in an attempt to educate, and to enforce Minnesota state laws.

I routinely run/check vehicle license plates for many different reasons. Some of them include:

- Unreadable tabs on the license plate due to it being covered by debris or snow.

- To verify the plates matches the vehicle.

- To verify the driver/registered owner has a valid driver's license.

When we run or enter a vehicle license plate, we typically get back the vehicle information (Make, model, year, and color), current registration status, registered owner driving status, and a current warrant status. We also get an alert if the vehicle and plates are stolen, along with other officer safety alerts.

Law enforcement is required to have reasonable suspicion to pull you over when operating a motor vehicle. For example, if the registered owner has a revoked, suspended, or cancelled driver's license, or has an active arrest warrant, we will need to have reasonable suspicion that

the registered owner is the person operating that vehicle or is an occupant with an active warrant. This is accomplished by the officer knowing that person and/or looking at the owner's physical description with the height, weight, eye color,

or, age, and if they are female or male. If the officer has reasonable suspicion that the owner is the driver and they do not have a valid driver's license, we are allowed to make a legal traffic stop on that vehicle and take enforcement action.

A portion of state statutes were used with permission from the Office of the Revisor of Statutes. The First and the Worst

by Auctioneer Eric W. Mickelson

When I enter into a conversation with another person who I know lives or did live on a farm, my standard question is, "What was the first tractor you ever drove!" Especially those who are older than I am. Then I sit and wonder about what it would have been like plowing with that D John Deere or mowing hay with that C Allis Chalmers. A few years ago I asked Larry O'Neill, of Oklee, my question. "What was the first tractor you ever drove. You see Larry had many years of farming experience. The O'Neill Farm was started by L.J. O'Neill in 1878. He settled in section 5 of Chester Township and also had an implement business in Oklee. His son Owen continued farming there until he retired, then Larry took over. Somewhere in his early lifetime Larry jumped on an F-20 Farmall, the first tractor he ever drove, and worked the land of Chester township. His dad purchased it in 1938. It had steel on the rear and rubber on the front. Of course I wondered what it would have been like to be farming on that F-20.

But Larry also continued the conversation without me asking. He said, "Want to know the worst tractor I ever had?" He then went on to describe an early 6000 Ford tractor that he had at sometime in his long lifetime of farming. I seemed to have performed worthlessly on the O'Neill farm and did not impress Larry!

Over the last 25 years since I moved to my grandparent's farm east of Oklee, I drive by the O'Neill farm whenever I go to town. Sometimes I purposely

drove down the curved township road that went right through Larry and Jeanie's yard just to see if there was a tractor sitting out by the quonset or in the gray steel shed. You see Larry had quite a talent at fixing up old tractors. I remember a smart looking little M John Deere, and beautifully restored E-3 Coop. There also was a nice M Farmall and most recently an awfully nice 4020 John Deere. So a trip down the "O'Neill Road" was often a good trip for me!

Last Saturday I attended Larry's funeral. I was able to visit with some of the family members. I read the obituary printed on the bulletin, and I listened to interesting stories told by some of his grandchildren, and the words of the priest. But I have to admit.....I was really daydreaming. Daydreaming about Larry driving an F-20 in Chester township many years ago. I have never gotten to

drive an F-20 Farmall, but if I do you know what I'll be thinking about!

How about a little tractor trivia!

1. T or F International Harvester came up with name Farmall because of their desire to build an affordable row crop tractor.

2. The F-20 was built from 1932- _____.

3. The F-20 was replaced by the model _____.

4. In 1936 Farmall changes their main paint color from gray to _____.

5. The "Big Brother" of the F-20, in the Farmall Series was the _____.

Answers: 1. TRUE 2. 1939 3. Model H 4. RED 5. F-30
