Team Soybean! program geared toward Minnesota FFA chapters and farmers alike

Crookston, MN. (August 4, 2022) - The University of Minnesota Extension is excited to announce that up to 42 Minnesota FFA chapters can join Team Soybean! Participating chapters will receive a complimentary soybean cyst nematode (SCN) soil sampling kit, learn valuable skills and help Minnesota soybean producers - all while having fun!

This program, sponsored by the Minnesota Soybean Research and Promotion Council, will introduce the next generation of crop producers and ag service providers to SCN, a microscopic worm that both parasitizes soybean roots and is the most yield limiting pathogen of soybean. Active SCN management begins with determining whether and to what extent farm fields are infested with SCN. FFA members that are a part of Team Soybean! will learn in both the classroom and in farmers' fields how to collect SCN soil samples, interpret

SCN test results and develop and communicate to farmers SCN population-based management recommendations for each sampled field.

"This program is very exciting and will positively benefit FFA students and farmers alike," said Angie Peltier, Extension crops educator. "Students will participate in carrying out field work that will directly affect current and future crop production decisions. They'll gain important skills to have as they continue their studies and ultimately choose a profession."

Soybean producers, students and community members that would like for their local FFA chapter to join Team Soybean! should contact their local school. Minnesota ag teachers: to get your questions about this program answered or to sign your FFA chapter up to be a part of Team Soybean!, contact: Angie Peltier (218) 281-8692, apeltier@umn.edu or Anthony Hanson (320) 589-1711 ext. 2124, hans4022@umn.edu.

We are twenty-two. Twenty-two weeks old. Yeah, yeah—I know. Wait. That means we're more than halfway. When did that happen? When you were napping. Ah, come on. You nap too. Not as much as you. Would you stop that? It's about time our fingernails grew all the way in. Fine. You scratch. I'll work on meconium. You and your crazy words. What is that? It's what we will use to fill our first diapers. Oh, that sounds like fun! You make some for Momma and I'll take Papaya. Hey, that was a good one! Thanks! Do you think they got it? -a.m.opdahl www.speaklife139.com

Theology in the Trenches

By Kathleen Kjolhaug

Sacred Stability

"I've been out in my garden working quite a bit. Maybe I shouldn't be spending my time there as much as I should be reaching out to other people? Maybe my time could be better spent."

My friend and I pondered these thoughts together as we chatted round her kitchen table. We circled back to it several times throughout our conversation looking at it from many angles.

"Do you like doing it?" I posed.

"Yes, it's fun to be about in His garden among the things He created."

We talked about the sacredness of time spent with Him and the prayerful paths upon which He leads while He refreshes.

Once home, as I swept the kitchen floor, I began to ponder days-gone-by when gardens were not an option but rather, a necessity. My friend, with whom I had been visiting, cans tomatoes for sustenance, cucumbers for special dips, and adds home grown radishes to the tasty dish made up for her family. The

onions grown are also tossed into the dip and served up fresh upon her table of grace. The fruit of her labor in the garden went well beyond herself as she utilized each portion for others—yet, she wondered aloud if this was allowed.

My friend already knew the answer. She knew well James 1:17. "Every good and perfect gift is from above, coming down from the father of the heavenly lights, who does not change like shifting shadows." And because she knew this verse, she knew it was pure gift to spend time in the midst of that which He created—so she, in turn, could create as pure gift for others.

As I finished sweeping up the crumbs upon the floor, my mind wandered to songs sung as a child which had certain days of the week designated for specific jobs within the home. Monday might be wash day—Tuesday mending—Wednesday ironing—Thursday yard work—Friday cleaning—and Saturday baking. Sunday was a day the family went to church which was the kickoff for a day of rest.

Those were not the exact days things happened in our household, but the rhythm of

life was ever present and like clockwork, it offered stability.

The sacred rhythm of work offered not only weekly stability, but seasonal. Spring house-cleaning, fall canning, summer gardens, and winter lead right on up to Christmas. Repetitive, sacred stability weaves the fabric of life into patterns and creates an offering, if you will, of prayer.

The generational consistency of setting aside a holy day of rest offered stability to the rest of the week knowing there was something much bigger surrounding our purpose in doing what we do each and every other day of the week. It was and is like an internal liturgical celebration of sacred.

Hebrews 13:8 gives Word to this. "Jesus Christ is the same yesterday and today and forever." It just can't get any more sacred or more stable than this.

As we find our rhythm, may it be in Him. As the days and weeks pass and as the seasons come and go—He never changes, never has changed, and never will change.

What a beautiful rhythm of sacred stability in which to rest both now and forever. Amen.

Socialization in midlife can have a profound impact on individuals as they approach their golden years. A 2019 study led by researchers at University College London found that being more socially active in your 50s and 60s predicts a lower risk of developing dementia later in life.

The study used data from a previous study that tracked more than 10,000 participants between 1985 and 2013. Participants in the study completed cognitive testing from 1997 onwards.

Researchers found that someone who saw friends almost daily at age 60 was 12 percent less likely to develop dementia than someone who only saw one or two friends every month.

Strong associations between social contact at age 50 and subsequent dementia were also uncovered. The study supports the idea that remaining socially active in one's 50s and 60s can benefit long-term cognitive health.

Ask a Trooper

by Sgt. Jesse Grabow Minnesota State Patrol

Question: I have a child that will be turning 15 years old pretty soon. We farm for a living, what are some of the rules and requirements for a farm permit to drive?

Answer: For those who qualify, there is a restricted farm license. A person who meets the requirements of this restricted license may operate a motor vehicle only during daylight hours and only within a radius of 40 miles of the parent's or guardian's farmhouse. There are no exceptions for driv-

ing to/from school or any other non-farm use.

Traffic crashes are a leading cause of death in Minnesota teens. Due to inexperience, distractions and risk-taking, teen drivers increasingly jeopardize their lives on the road compared with other drivers. In 2020, teens (15-19) made up just 6 percent of all licensed drivers. Yet, they made up 16 percent of all drivers involved in traffic crashes.

Teens also have the lowest seat belt use rate of all age groups. In 2020, only 54 percent of killed motor vehicle occupant teens (13-19) were known to be

buckled up.

Parents, please be sure your child is ready to drive and help them gain experience before sending them alone.

Tractor Show Time

By Auctioneer Eric W. Michelson

It is that time of year again. My wife and I traveled to Iowa for a couple of family reunions on her side. When we were preparing to go I saw a that about an hour and a half away was a tractor show.....featuring John Deere. I said lets go a day early to your family reunions....and we can stop in Marshalltown, Iowa, for the Mid Iowa Antique Power Assn. Show! She said sure so off we went on Thursday instead of Friday staying in Marshalltown.

We were at the show fairly early on opening day! I walked all through the tractors on display paying special attention

John Deeres of course. The thing about a tractor show is not just the tractors, it is the people. I would stop and look and if the owner was nearby I would stop a visit for a while. One of the most unique tractors I saw there was a WC Allis Chalmers high crop. This one was owned by Sam Adams of Bedford, Iowa. The WC had 36 inch rear tires and rims instead of 28 inch. The tractor also had a special rear end and final drive. Most of these tractors have a single front wheel, but this one has a narrow front end with 17 inch spoked front rims. In talking to the owner his research

found only two lots of 100 of the special rear ends were ordered. This supports the theory 200 or less of these tractors were ever made! This tractor originally came from California but eventually ended up in Iowa! It is a quite interesting machine!

Summer is fleeting by but I have plans to sneak in a few more shows. Thanks to Mr. Sam Adams for the visit and congratulations on the nice machine!

How about a little tractor trivia!

1. The suggested price for a WC on steel was \$675. What did one cost at the same time on rubber?

A) \$725 B) \$825 C) \$925

2. Where did the president of Allis Chalmers get the idea for there orange color?

3. What was the name of the Allis Chalmers patented round balers?

4. What is the name of the Allis Chalmers model that used WC frame but the smaller engine from a Model C?

5. What was the first tractor model driven by Ambrose Beaudion and Morris Hendrickson?

Answers 1. B) \$825 2. a field of poppies 3. Roto-balers 4. RC 5. WC

Bemidji Speedway "Racing Families" "The Dynamic Duo"

8/2/2022

By Dennis Peterson

Bemidji Speedway enjoys the participation of many teams with family connections. One such family team is the "Dynamic Duo" of Doyle and Blake Erickson of Bagley. The Erickson's have been consistent winners at Bemidji Speedway since Doyle started racing in 1997 in the pure stocks and streets.

Doyle Erickson has won six track championships at

Bemidji Speedway. He won the John Seitz Memorial race in the Wissota Midwest Modified and won in a Late Model at the Grand Forks Raceway. In his career he has nearly 100 feature wins, something very few have accomplished. Twice in their careers, Doyle and son Blake have won features on the same night. Doyle currently races in the Wissota Midwest Modified class.

Blake has raced for several years starting out in the Mini

Stock class where he won his first feature in his first year. The following year he was crowned the track champion in the mini class. In his first year of racing in the Wissota Mod Four class he also won a feature race and placed an impressive fifth at the Wissota 100. In 2020 Blake was crowned the Wissota Mod Four Season points champion. So far in 2022 he has won two features and is currently in second place just 12 points

behind point leader Skyler Smith.

The Erickson's will be competing for the right to go to the Wissota 100 on Sunday with drivers from throughout the area as the "AFCO Race of Champions" night hits the Bemidji Speedway. Along with the Race of Champions will be the Dean Olafson Memorial Pure Stock and Hornet Special postponed from last Sunday.

Bemidji Speedway AFCO Race of Champions & Dean Olafson Memorial Special

7/7/2022

By Dennis Peterson

It was double the excitement at Bemidji Speedway on Sunday night with the AFCO Race of Champions and the Dean Olafson Memorial Pure Stock and Hornet Special taking the center stage at the track. 98 cars in six classes filled the pits and with extra pay incentives in the Dean Olafson Memorial Special and the Wissota Midwest Modifieds the action was fast and furious. The Wissota Pure Stocks were racing for \$1,000.00 and the Wissota Hornets \$500.00 but Doyle Erickson Logging added an extra \$100.00 to each class. In the Wissota Midwest Modifieds Dean Eggebratten Paul Bunyan Mini Storage added an additional \$250.00 to the first place winner, \$150.00 to the second place winner and \$100.00 to the third place winner in addition to the regular purse plus \$100.00 for the Hard Charger winner.

Big winners on the night were Shane Sabraski with a clean sweep of both the Wissota Super Stocks and the Wissota Modifieds. Skyler Smith a clean sweep in the Wissota Mod Fours. In the Dean Olafson Memorial Pure Stock Special it was Dustin Puffe taking the feature and in the Wissota Hornets Carter Matthews came from 16th place to claim the win. Bikes, scooters and others prizes were given out to lucky kids.

Next Sunday the second and last RockStar Energy Kids Night will be held with all kids 12 and under receiving free admission. During intermission kids and fans of all ages can meet the drivers on the track. Races start at 5:30 with all classes running.

Wissota Midwest Modified Feature AFCO Race of Champions Qualifier: First feature race of the night was the Wissota Midwest Modifieds with Josh Beaulieu on the pole and Alan Olafson to his right. 18 B Mods qualified for the feature. With flagman Tim Jackson waving the green flag Beaulieu powered to the lead with Olafson, Darrin Lawler, Jeff Reed and Jake Smith in the top five. Reed raced inside passing Lawler for third but Smith was on the move down the back straight passed both Lawler and Reed. A few laps later a three wide battle for the lead with Beaulieu, Olafson and Smith took place on the back straightaway. Beaulieu charged back and regained control and picked up the feature win and extra cash. Olafson, Smith, Reed and Aaron Blacklance filled out the top five. Beaulieu with the win qualified for the AFCO Race of Champions in September.

Wissota Pure Stock Dean Olafson Memorial Feature: Racing for \$1,000.00 18 Wissota Pure Stocks drove on track with Kade Leeper and

Carter Matthews - Hornets, \$500 to Win for Dean Olafson Memorial

Dustin Puffe in row one. The two raced side by side for several laps before Leeper moved to the front with Puffe, Austin Carlson, Dusty Caspers and Michael Roth trailing. Roth, last years winner, raced inside and into fourth as Caspers and Josh Berg dueled for fifth. Roth continued his attack racing high in turn four and into third. Puffe caught and passed Leeper to take the lead as Roth also moved inside and passed Leeper. Puffe and Roth pulled away from the pack and battled to the end with Puffe holding to the finish line and picking up the feature win and the big check. Roth, Leeper, Carlson and Caspers trailed the leader.

Wissota Hornet Dean Olafson Memorial Feature: A total of 21 Wissota Hornets drove on track for the Dean Olafson Memorial race with Brooklyn Vernlund on the pole and Chad Reller to her right. The two raced side by side for a lap before Reller moved to the lead. Tristen McLynn, pulled up into second with Justin Barsness, Vernlund and Zachary Rusich in the top five. Barsness raced inside to pass McLynn for second as charging from the tail end of the field Travis Olafson made his way into the top five. Also on the move from his 16 place starting spot in the eight row was Carter Matthews. Matthews charged through traffic and pulled up behind Reller. It became a three car race with Reller, Barsness and Matthews. Barsness took the lead from Reller and Matthews and Reller raced door to door for

second. With the white flag waving for the final lap and the leaders racing through lapped traffic Matthews beat Barsness to the finish line. Barsness was second with Reller, McLynn, and Olafson in the top five. Matthews pulled into Victory Lane and received the check for \$600.00 from the Olafson family in a thrilling race.

Wissota Mod Four Feature: The Wissota Mod Fours were led on track by Blake Erickson and Landyn Randt. A fast start led Erickson to the lead with Skyler Smith racing up into second followed by Doyle Erickson, Randt and Dean Shaver. Smith raced up on the inside of Erickson and the two battled door to door for the lead with neither letting up and inch. Smith finally two laps later took the lead and drove to his sixth feature win at Bemidji this summer. Erickson, Randt, Doyle Erickson, and Conrad Schwinn rounded out the top five.

Wissota Super Stock Feature: Racing for the right to go to the AFCO Race of Champions the Wissota Super Stocks drove on track with Shane Sabraski and Jeffrey Frey in row one. With the green flag waving Sabraski quickly raced out to the lead with Jack Koranda, Dexton Koch, Frey and Jake Froemke trailing. Sabraski, Koranda, and Koch pulled away from the pack as Froemke made a move and passed Frey for fourth on the high side. Sabraski had a nearly 1/3 lap lead over the field but a late caution flag brought the pack back to him

for a restart. On the restart Froemke moved up into second as Sabraski once again pulled out and picked up the feature win on a green white checkered finish to the race. Sabraski picked up the right to represent Bemidji Speedway at the Race of Champions. Froemke, Koch, Dalton Carlson and Frey finished in the top five.

Wissota Modified Feature: The final race of the night was the Wissota Modifieds again racing for the right to race the Race of Champions in September at the I 94 Speedway in Fergus Falls. John Farrington had the pole position with newcomer to the modified division Joey LaValley to his right. LaValley showing he was ready for the

challenge powered to the lead with Farrington, Josh Beaulieu, Tanner Williamson and Shane Sabraski in the top five after one lap. Sabraski split several drivers up the middle pulling into third and on the back straight moved inside and raced up door to door with LaValley and the rookie and veteran raced side by side for a lap. Sabraski won the battle and quickly drove away from the field and picked up his second clean sweep of the night and second ROC qualifier. Williamson and Beaulieu got by LaValley for second and third but for LaValley he finished a strong fourth with Farrington fifth ending a fantastic night of racing at Bemidji Speedway.

Josh Beaulieu, MWM Feature Winner, additional \$250 purse for winner.
