school board hears about long-term facility maintenance

by karen riedel

warren, leon, board vice president of northern dental access center in bemidji, gave a presentation to the clearwater county commissioners on july 20th. bemidji is the home of the northern dental access center, which was created through the joint meeting of northern dental access center in bemidji, which provides dental care for the uninsured people within the entire region of rural, northern minnesota.

the resolution explains the lack of access to care that is so common among people experiencing poverty or other life challenges, and has the lack of adequate dental care negatively affects the health of individuals in the community. the resolution also expresses the will of the commission to do what it can to work with people in other northeast minnesota counties, to fill the need for a more functional dental facility in the area. a letter he handed out read, “we hope to have state funding to support the new dental center.”

the resolution was adopted unanimously by the commissioners.
